

At Thomas Telford UTC we pride ourselves on providing a high quality core curriculum in all of the core subjects students study in any mainstream school. However, for those students interested in Innovation, Design and Construction we go further with qualifications that are selected for the content that will help them 'get ahead'. We truly are focussed upon creating future talent for these sectors that has no equal.

To enable this, we work with a range of Employer Sponsors, to make unique learning experiences come alive and to give students experience of working alongside professionals from the sector.

Not only is the UTC fortunate enough to be a part of the Thomas Telford group of schools, it is also closely affiliated with Wolverhampton University. We also have very strong partnerships with a number of high profile, major construction companies. It is working closely with these companies that allows us to develop a curriculum fine tuned to meet the needs of the industry and provide high quality delivery and experiences.
